

### 2007 New York State Tax Table

**Caution:** If your New York adjusted gross income (line 32 of Form IT-203) is more than \$100,000, you cannot use these tables. See *Tax computation — New York AGI of more than \$100,000* on page 77 to compute your tax. Failure to follow these instructions may result in your having to pay interest and penalty if the income tax you report on your return is less than the correct amount.

The tax is based on New York taxable income (line 37 of Form IT-203).

**Example:** Mr. and Mrs. Jones are filing a joint return. Their taxable income on line 37 of Form IT-203 is \$38,275. First, they find the 38,250 - 38,300 income line. Next, they find the column for Married filing jointly and read down the column. The amount shown where the income line and filing status column meet is \$1,844. This is the tax amount they must write on line 38 of Form IT-203.
